ACHIEVEMENTS

Received cash prize as recognition for developing a small website, marking my first achievement in web development.

Recognized as the best team in a 36-hour IoT hackathon, demonstrating exceptional teamwork and innovative problem-solving abilities.

CERTIFICATIONS

REACT BASICS | Coursera

PYTHON FOR DATA SCIENCE | NPTEL

CYBERSECURITY ESSENTIALS

| Cisco Networking Academy

PROJECTS

RIDENSHARE

Developed a full stack website that connect people to share rides, reduce travel expenses and to reduce traffic congestion Using Python Flask, MonogDB etc.

MEDIMATE

Developed a pill box that addresses the common issue of forgetting to take medications on time.I designed and implemented a solution using ESP8266, an IR sensor, and Python programming.. To enhance user experience and convenience, I created a Telegram application that sends reminders and schedules to users, ensuring they stick to their medication routine effectively.
